

**The Oxford – NNF fellowship programme
interviews December 2022 at the
NNF conference in Kolkata
8 positions**

We welcome applications from doctors who would like to come and train at our tertiary neonatal unit at Oxford. The neonatal unit at Oxford provides medical and surgical care to approximately 850 admissions per year with 175 of them being <1500 g at birth) We have a well- developed transport service.

- The fellowships are for 2 years, and you need to have completed your MD/DnB in Paediatrics and should be doing or completed an NNF/IAP neonatal fellowship or DM in Neonatology. DM doctors are welcome to apply.
- You may apply without the IELTS/OET exam but would need to pass before the start of the fellowship. Your salary, education, supervision and training opportunities will be identical to other UK trainees
- **Please write to NeonatalPaedFellowship@ouh.nhs.uk with your CV. Please copy secnnf@nnfi.org . You will be sent an application pack – please fill in the application as much as you can.**
- We plan to hold interviews during the national conference in December 2022 at Kolkata. You can attend online or in person.
- Start date for the Fellowship is negotiable but are likely to be March to August 2023
- We have trained over 100 doctors from South Asia via our fellowship programme. O
