29TH May 2024

THE PRESIDENT &
THE SECRETARY GENERAL
N.N.F.

At the outset, we would like to acknowledge the significant contributions of our esteemed neonatologists and Pediatricians to the upliftment of Neonatal ICU care in our country, which has had a profoundly positive impact on neonatal surgical outcomes. However, congenital anomalies still remain the third most common cause of persistently high infant mortality rates in rural areas and is a menace to progress of our country in Pediatric Health Care.

The national and overseas repute of the National Neonatological Forum (NNF) in promoting teaching, training, skill development, and social interventions at city, district, and village levels is widely appreciated by Pediatric Surgeons across the country and by our Association as well. Inspired by your remarkable journey in transforming infant care in India, we are eager to join hands with you in your activities and initiatives.

Therefore, we request your esteemed organization to collaborate with the Indian Association of Pediatric Surgeons to foster awareness about neonatal surgery and to familiarize our fraternities with the latest advances in this field. We are enthusiastic about advancing this cause and look forward to the opportunity to discuss this collaboration further.

We are looking forward to a positive response.

Sincerely,

Professor Dr Ramesh Babu
President,
Indian Association of Pediatric Surgeons
